

Homework 4

Due: Wednesday 13/05/2026 11:00AM

Nộp theo nhóm

Submission: L0**X**_HW2_**YOURNAME**.zip (X = 1, 2)

Accepted file: ipynb + pdf

Grade:

- **Theory/background (50%)**
- **Simulation of the application (50%)**

You must show your motivation behind the chosen topic, also its theory/ background/ math, and applications. Your GROUP report should include source code and a detailed documentation of the algorithms.

Choose **ONE** of the 2 topics below:

Topic 1 (Max 10/10):

Reinforcement Learning

Q-Learning / Deep Q-Learning

- **Atari Games**

Topic 2 (Max 10/10):

Deep Learning:

- **RNN/GRU/LSTM:** Time Series application
- **Resnet:** Computer Vision Application
- **Audio:** Sound and Speech Application
